

UZNAIN RASHID

Full Stack Developer

uznainrashid5@gmail.com | 0308-9245646 | Lahore, Punjab, Pakistan

<https://www.linkedin.com/in/uznain-rashid-806442321/> | <https://github.com/uznainrashid>

PROFESSIONAL SUMMARY

CS graduate & Full-Stack Developer specializing in the MERN stack, Next.js, and AI integration. Proven experience building scalable web apps with robust backends (PostgreSQL, Node.js), JWT auth, and responsive TailwindCSS UIs. Hands-on expertise in AI engineering, including LangChain, RAG systems, and ChromaDB vector databases. Adept at designing RESTful APIs and deploying to Vercel/Netlify. Ready to drive value from day one.

PROFESSIONAL EXPERIENCE

MERN Stack & Next.js Developer Intern

Techzoq (Pvt.) Ltd

Dec 2025 – Feb 2026 | Kasur, Punjab

- Developed & Optimized Web Apps:** Built high-performance, responsive full-stack applications using the MERN stack (MongoDB, Express, React, Node.js) and Next.js, ensuring clean architecture and optimal rendering.
- API Integration & Performance:** Designed and integrated RESTful APIs, optimized server-side performance, and implemented secure user authentication systems to enhance platform data security.
- UI/UX Excellence:** Collaborated on crafting seamless, component-driven user interfaces using TailwindCSS, improving client-side responsiveness across multiple devices.

MERN Stack Developer Intern

Micro Data Tech Solutions

Sep 2025 – Oct 2026 | RS MART, DHA Phase 9 Town Lahore

- Full-Stack Feature Development:** Contributed to building dynamic web features using React.js and Node.js/Express, ensuring smooth integration between frontend UI and backend services.
- Database & State Management:** Assisted in designing MongoDB schemas and managing application state effectively to support reliable, fast data retrieval.
- Component Optimization:** Created reusable, modular UI components using TailwindCSS, improving code maintainability and cross-browser consistency.

EDUCATION

BS Computer Science

Govt. College University Faisalabad

Sep 2021 – Sep 2025 | Faisalabad, Punjab | GPA: 3.21/4.00

PROJECTS

SmartBuy – Full-Stack E-Commerce Platform

Dec 2024

Architecture & Authentication: Developed a full-stack e-commerce marketplace using React.js, Node.js, Express.js, and MongoDB. Implemented secure JWT authentication, bcrypt password hashing, and cookie-parser for structured session handling.

Core Marketplace Features: Engineered dynamic product browsing, integrated shopping carts, and a dual-payment gateway supporting both Stripe and Cash on Delivery (COD).

Role-Based Admin Panel: Built a comprehensive admin dashboard with strict role-based access control to manage product catalogs, monitor orders, and manage users.

Technologies: React.js, useContext, TailwindCSS, Node.js, Express.js, MongoDB, Mongoose, RESTful APIs, CORS, Postman, Git.

<https://fyp-1-y2q7.vercel.app>

SwiftChat – Real-Time Chat Application

Mar 2026

Real-Time Orchestration: Engineered a full-stack real-time conversational application featuring instant messaging and private chat rooms using the MERN stack and Next.js.

Bi-Directional Communication: Implemented Socket.io to establish seamless, low-latency bi-directional communication channels, managing active user status mappings efficiently.

State & Data Persistence: Managed persistent user data, structural message payloads, and detailed chat histories utilizing MongoDB and Mongoose schemas.

Security & UI: Integrated JWT (JSON Web Tokens) for robust user authentication and session management, paired with an SEO-optimized, highly responsive frontend built via TailwindCSS.

Technologies: Next.js, React.js, Node.js, Express.js, Socket.io, MongoDB, Mongoose, JWT, TailwindCSS.
